Welcome to the Net Control Operator Dashboard

To begin using this system:

- Enter **Training Mode** if necessary.
- Select your current Area Number from the dropdown at the top left.
- Select your current role (Primary NCO, Backup NCO, or Lurking) from the dropdown at the top left.

Important Reminders

- All reports must be logged. Reports which do not meet SKYWARN Reporting Criteria should be marked "Non-Reportable/Log Only."
- We do not accept third-party reports. All reports must be personally observed by the reporting station.
- Only set your role as "Primary NCO" or "Backup NCO" if you are on the air as an NCO.
- Area Managers and Net Managers activating or deactivating a net: please remember to update the Risk Tables and push to EMWIN.
- Please sign into the chat service, either using the link at the bottom of the screen or supported third-party software.

RMS version 3.7 Released

RMS 3.7 was pushed to the server on March 2, 2014. Use the links below for more information:

- [RMS 3.7 Release Notes](#)
- [SKYWARN Systems Reference](#)

Please direct any feedback or bug reports to [KG4PEQ](#).
